AKC Class Changes Effective January 1, 2020

Entering a Mixture of Regular and Preferred Classes Within the Same Trial Weekend

Effective January 1, 2020, exhibitors may enter a mixture of both Regular and Preferred classes on the same trial day and/or during a trial weekend.

For example, the same dog may now be entered in Regular FAST and/or T2B to finish up those titles while also entered in Preferred Master STD/JWW to start working towards their PACH at the lower height.

Any mixture of Regular and Preferred classes is allowed.

Please note that if a dog qualifies in Regular Master Standard and Preferred Master JWW (or vice versa) on the same trial day, then NO Double Q shall be earned toward either the MACH or PACH title. The Double Q still requires that Standard Agility and Jumpers With Weaves be either both Regular OR both Preferred on the same trial day.

Multiple Jump Heights Within the Same Trial Day

Additionally, within the same Regular or Preferred classes, a dog may now be entered in multiple jump heights within the same trial day.

For example, the same dog may now be entered in 20-inch Master STD/JWW while also entered in 24C-inch Premier STD/JWW on the same trial day.

A separate entry form must be submitted when the same dog is being entered in a mixture of Regular and Preferred and/or different jump heights within the same trial weekend thereby clearly indicating which class(es) and/or jump heights belong together for each trial day of the weekend.

When calculating entry fees, treat multiple entry forms for the same dog as if only one form had been filled out. In other words, the 1st run entry fee is only paid once per day, per dog, even if that dog's runs have been submitted on multiple entry forms.

2020 Updates - Continued

Entering For Exhibition Only (FEO)

As of January 1, 2020, For Exhibition Only may be offered at the option of the host club. FEO will be offered on a one-year pilot basis in order to give AKC time to evaluate its impact. FEO will allow exhibitors to work with their dogs in a trial environment. FEO is only allowed in the Time 2 Beat and FAST classes. FEO will be of value to new exhibitors or exhibitors that are having difficulty with a specific obstacle and/or ring environment.

Competitors must enter in **T2B and/or FAST**.

Participation in FEO is non-qualifying.

- FEO runs are treated as trial entries. The exhibitor must enter the class(es) (T2B and/or FAST) prior to the closing date, pay class entry fee(s) and the Trial Secretary must record the entry in the Trial Catalog as part of the results for that class. FEO does not need to be noted on the entry form; the handler will declare the day of the show.
- Dogs may be entered in any jump height for FEO runs. If entered in an ineligible jump height, the team is committed to FEO for that run and must declare FEO on the start line. Day of show jump height changes are not allowed.
- Dogs may be entered in any level of FAST (Novice, Open, Excellent, Master). If the dog is not eligible for the level entered, the team is committed to FEO for that run and must declare FEO on the start line. Day of show level changes are not allowed.
- The exhibitor must declare FEO in the ring prior to leading out. FEO may be declared earlier (ex. when checking in at the gate board).
- Toys are allowed in the ring
 - Toys must be non-audible
 - Toys may not leave the handler's hand
 - Toys that roll freely cannot be used
- Food/treats are not allowed in the ring
- FEO should be utilized for the benefit of the dog and not as a punitive correction. Harsh verbal and /or physical corrections shall not be tolerated. Any determination of harshness by the judge shall be immediately whistled and the handler will be dismissed from the ring.
- A judge must monitor the entire run. Judges can stop a run at any time
- The scribe will record FEO, NT and E on the scribe sheet.

2020 Updates - Continued

Fix and Go On (FNG)

As of January 1, 2020, Fix and Go On will be offered on a one-year pilot basis in order to give AKC time to evaluate its impact. FNG allows exhibitors to immediately reattempt an obstacle at any time while on course when the dog's performance of an obstacle is not to their expectation. This allows the dog to successfully complete the obstacle then finish the course or leave the ring on a positive note. Using FNG will result in a non-qualifying score.

Fix and Go On is not pre-entered; rather, it occurs during the course of the run.

When a handler initiates Fix and Go On

The judge will signal with crossed arms and a verbal "Fix and Go On" to the timer and scribe.

- The scribe will record FNG on the scribe sheet.
- The timer will immediately watch the timer console and press the horn when the following times are reached: 60 seconds on Standard Courses and 45 seconds for JWW courses.
- T2B and FAST horn will sound when the programmed time is reached.

The Rules:

1. The handler may reset the dog and repeat an obstacle ONE time to attempt to fix a behavior. Handlers may include preceding obstacles to establish a proper approach to the obstacle being fixed.
2. Handlers can touch equipment, re-set a jump and touch/pet their dog.
3. Should a handler attempt to fix an additional obstacle and or behavior later in the course, the whistle will be blown, and the handler must immediately proceed to the exit. Handler may choose to fix a start line and is not to be confused with a handler who runs with their dog after their initial return.
4. Judge will signal FNG when the handler LEADS OUT past the first obstacle for the SECOND TIME.
5. The Timer will manually start the time when the judge signals FNG.
6. If the dog breaks their start line stay and completes the first obstacle and the handler chooses to repeat the lead out the judge will signal FNG when the handler directs their dog back to the start.
7. The time will continue to run.
8. FNG should be utilized for the benefit of the dog to reinforce a positive performance and NOT as a punitive correction. Harsh verbal and/or physical corrections shall not be tolerated and result in immediate dismissal from the ring
